Section 1. Every licensed physician attending a pregnant woman for a condition relating to her pregnancy, or at delivery, or after delivery for a condition relating to her pregnancy, shall in the case of every woman so attended, take or cause to be taken a sample of blood of such woman at the time of first examination or within fifteen days thereafter, and shall submit such sample to the laboratory of the Department of Public Health or to a laboratory approved by said Department, for a standard serological test for syphilis. In submitting such sample to the laboratory, the physician shall specify whether it is for a prenatal test or a test following recent delivery. The laboratory of the Department of Public Health shall analyze such sample without charge upon the request of any licensed physician.

- Sec. 2. Every other person attending a prognant or recently delivered woman in the State, but not permitted by law to take blood samples, shall within fifteen days of the first examination cause a sample of blood of such woman to be taken by a licensed physician and have the sample submitted to the laboratory of the Department of Public Health for a standard serological test for syphilis, or to a laboratory approved by said Department.
- Sec. 3. For the purpose of this act, a standard serological test shall be a test for syphilis approved by the Department of Public Health.
- Sec. 4. The laboratory analyzing the blood sample shall furnish to the physician offering the sample a detailed report of the standard serological test, and including the result of the test. If the laboratory is not operated by the Department of Public Health, a copy of such report shall be filed with said Department. The report shall be held in absolute confidence, and shall not be open to public inspection.

Chapter 166. Session Laws of 1945
Be It Enacted by the Legislature of the State of Idaho:

Section 1. The Department of Public Health is hereby authorized and directed to fix and prescribe, from time to time, minimum standards of pasteurized milk and milk products and including minimum sanitation standards relating to methods of pasteurizing the same and to the structure and equipment of such pasteurizing plants. In fixing such standards the department shall give consideration to advancements in science and improvements in methods of pasteurization.

Section 2. The Department of Public Health, upon adoption of any such standards, shall cause the same to be published in pamphlet form and shall furnish the same free of charge to applicants therefor.

Section 3. Any person engaged in pasteurizing milk or milk products which are to be labeled or represented as pasteurized shall register with the Department of Public Health on forms, containing such information as the department may require, and shall permit the authorized agents of such department to inspect his plant and test the products thereof at all reasonable times.

Section 4. This act shall not apply to pasteurized butter and processed milk products which are otherwise regulated by statute.

Section 5. Any person, engaged in processing or selling any milk or milk product labeled or represented as pasteurized, who, after warning from the Department of Public Health that such product does not conform to the standards or has been or is being processed by methods or in plants not conforming to the pasteurizing standards prescribed by the department, shall continue to sell or offer for sale such non-conforming product, labeled or represented as pasteurized, may be enjoined in equity from continuing such operations.

Whenever the insanitary condition of any slaughtering house or other
place in which meat is prepared or kept for sale renders unfit for
human food any meat found therein, the Department of Public Welfare
shall condemn such meat and notify the owner or owners of such action.
If such owner or owners fail to remove and destroy such condemned
food within a reasonable time, then the Department of Public Welfare
shall proceed under sections 36-109 and 36-110, and its official
upon the proper order of the court, shall saturate with kerosene all
such condemned meat: and the building in which said meat has been
slaughtered shall not be used for any similar purpose until such
condemned meat is removed and destroyed and the building placed in
a sanitary condition, and accepted by the department.

Section 36-1325. INSPECTION AND LICENSING OF SLAUGHTER HOUSES. It shall be the duty of the Department of Public self re to at least once a year inspect all public slaughter houses or slaughter yards and other places where meat or meat products are prepared for human consumption, and if the said places are sanitary and are maintained in a condition in conformity with the provisions of this chapter. it shall issue a certificate so certifying to the present conditions of said places, and said certificate shall be good for a period of one year unless the same be revoked and cancelled for nonconformity with the provisions of this chapter. Seid certificate may be revoked by the department upon the failure of the persons or corporations owning or controlling the places mentioned in this section to comply with any of the provisions of this chapter. No certificate shall be evidence that said places are maintained in conformity with the provisions of this chapter for any other time than at the date of said certificate.

Section 36-1326. CERTIFICATE TO BE PROCURED BEFORE OP MING SLAUGHTER HOUSE.—Any person or corporation who shall sell or offer for sale, or expose for sale at public or private sale, any meat or food products which have not been prepared for human consumption in the places mentioned in the preceding section, or who shall operate said places without first obtaining from the said department the certificate or permit mentioned in said section shall be guilty of a misdemeanor and shall be punished as provided in the following section: Provided, that nothing in this chapter shall be construed to prohibit any farmer from slaughtering any animal raised by him, and disposing of the meat of such animal: Provided, that said meat was prepared in a sanitary and wholesome manner and under proper sanitary conditions, not surrounded by or in proximity to contaminating conditions of any kind, and protected at all times up to delivery to the purchaser from dust, dirt, flies, and other contaminations.

In prosecuting under this section it shall not be necessary to allege or prove that the defendant did not have the certificate or permit mentioned in the preceding section at the time the act is alleged to have been committed, but the burden shall be on the defendant to show that he had such certificate or permit at such time.

# IDAHO OCCUPATIONAL DISEASE COMPENSATION LAW

Section 45-2101. SHORT TITLE. -- This chapter may be cited as the "Occupational Disease Compensation law."

## Right to Compensation for Disablement From Occupational Disease

Section 42-2101. RI HT TO COMPENSATION-IPLICABILITY OF WORKER'S COMPENSATION LAW. --Where an employee of an employer subject to this chapter suffers from an occupational disease, as defined in Section 43-2104, and is thereby disabled from performing his work in the last occupation in which he was injuriously exposed to the hazards of such disease, or dies as a result of such disease, and the disease was due to the nature of an occupation or process in which he was employed within the period previous to his disablement limited in this chapter, the employee, or in case of his death, his dependents, shall be entitled to compensation, as provided in the workmen's compensation law, as if such disablement or death were an injury by accident, except as otherwise provided in this chapter; and the practice and procedure procedure in the workmen's compensation law shall apply to proceedings for compensation for such diseases, except as in this chapter otherwise provided.

Section 43-2103. SECURITY FOR COMPENSATION -- COMPENSATION REFEDY pensation law shall be subject to the provisions of this chapter and shall secure the payment of compensation in accordance with the provisions of this chapter by any method prescribed by the workmen's compensation law at the time in effect in this state. Where the foregoing requirement is complied with the liability of the employer under this act shall be exclusive. The rights and remedies granted by the workmen's compensation law to an employee on account of personal injury caused by accident, or, on account of the disability caused by an occupational disease named and contracted, as provided herein, for which injury, or disability he is entitled to compensation under this chapter, shall exclude all other rights and remadias of such employee, his personal representatives, dependents, or next of kin at common law, or otherwise, against the employer, on account of any injury or disability incurred in the course of or because of his employment.

Section 43-2104. OCCUPATIONAL DISEASES DIFFINED. -- Compensation as provided in this chapter shall be payable for disability or death of an employee resulting from the following occupational diseases:

- (1) Poisoning by lead, mercury, arsenic, zinc, or manganese, their preparations or compounds in any occupation involving direct contact therewith, handling thereof, or exposure thereto.
- (2) Carbon monoxide poisoning in any process or occupation involving direct exposure to carbon monoxide in buildings, sheds, or enclosed places.

Section 43-2106. LAW NOT RETROACTIVE. -- The provisions of this chapter shall apply only to cases of occupational disease in which the last injurious exposure in an occupation subject to the hazards of such disease occurred on or after the date on which this chapter shall have taken offect.

Section 43-2107. LAST ETTLOYER LIABLE -- AMOUNT OF COMPENSATION .--Where compensation is payable for an occupational disease the sameyer in whose employment the amployee was last injuriously exposed to the hazards of such disease shall be liable therefor: the amount of the compensation shall be tased upon the average weekly wases (as defined in the workmen's compensation law) of the employee when last so exposed under such amployar; and the notice of disability and claim for compensation shall be given and made to such employer; provided, however that the maximum compensation to be allowed for disability, or death, or both, on account of any occupational disease, other than silicosis, shall be \$5,000.00 until a transitory period of six years from date when this chapter becomes effective shall have expired, and thereafter the total aggregate of such compensation and honofits shall be as provided in the workmen's compensation law; provided further that in case of silicosis the only employer liable shall be the last employer in whose employment the employee was last injuriously exposed to the hazards of the disease during a period of sixty days or more after the elfective date of this chapter.

Section 43-2108. AGGR.VATION--PROPORTION...L COMPLEXATION.--There an occupational disease is appravated by any other disease or infirmity, not itself compensable, or where disability or death from any other cause, not itself compensable, is appravated, prolonged, accelerated, or in any wise contributed to by an occupational disease, the compensation payable shall be reduced and limited to such proportion only of the compensation that would be payable if the occupational disease, were the sole cause of the disability or death as such occupational disease, as a caustive factor, bears to all the causes of such disability or death, such reduction in compensation to be effected by reducing the number of weekly or monthly payments or the amount of such payments, as under the circumstances of the particular case may be for the best interest of all the parties.

Section 43-2109. LIMITATIONS.--An employer shall not be liable for any compensation for an occupational disease unless such disease shall be due to the nature of an employment in which the hazards of such disease actually exist, are characteristic of, and peculiar to the trade, occupation, process, or employment, and is actually incurred in his employment and unless disablement or death results within two years in case of silicosis, or one year in case of any other occupational disease, after the last injurious exposure to such disease in such employment, or, in case of death, unless death follows continuous disability from such disease, commencing within the period above limited for which compensation has been paid or awarded or claim made as provided in this chapter, and results within two years after such last exposure.

An employer shall be liable for any compensation for a non-acute occupational disease unless such claimant was exposed to the hazard of such disease for a period of sixty days for the same employer.

Section 43-2110. MEDICAL TREATMENT. -- In the event of disability from an occupational disease, the employer shall provide resonable nedical and other treatment for such time as in the judgment of the board will tend to less an the period of disability or provide needed relief: Trovided, however, medical and other treatment shall be limited in the case of a workman disabled by an occupational disease to a period of ninety days from the date of such disablement, but the recuirement for such treatment may be extended for an additional period not to exceed ninety days upon the order of the board.

Section 43-2111. DETERMINATION OF DEPENDENCY, -- No compensation for death from an occupational disease shall be payable to any person whose relationship to the deceased, which und r the provisions of this chapter would give right to compensation, crose subsequent to the beginning of the first compensable disability, save only to ofter-torn children of a marriage existing at the beginning of such disability.

Section 43-2112. NO COMP ENSATION IN CASES OF MISE PRESENTATION. No compensation shall be payable for an occupational disease if the employee, at the time of entering into the employment of the employer by whom the compensation would otherwise be payable, fils by represented himself in writing as not having previously been disabled, laid off, or compensated in damages or otherwise because of such disease.

Section 43-2113. RULES FOR PHEVENTION. -- The industrial accident board may require all employers to adopt rules which have been approved by it for the protection and safety of his employees and to prevent the contraction of occupational diseases, and to keep the same posted in conspicuous places in, and about the premises: and the board may require employers to install, use or adopt such protective or safety appliances as in the boards opinion are necessary for the protection of the employees.

Section 43-2114. WILFUL SELF-EXPOSURE. -- A workman or his dependents shall not be entitled to compensation hereunder if he fails to observe such rules and regulations as may be promulgated by or approved by the industrial accident board and posted in the plant by the employer, or to use the protective and safety devices furnished by his employer, as prescribed by the board.

otherwise than under the provisions of this chapter, or come within the provisions of this chapter, unless during the ten pears immediately preceding the date of disablement the employee has been exposed to the inhalation of silica dust over a period of not less than five years, the last two years of which shall have been in this state, under a contract of employment existing in this state, however provided, that if the employee shall have been employed by the same employer during the whole of such five-year period, his right to compensation against such employer shall not be affected by the fact that he had been employed during any part of such period outside of this state.

Section 43-2118. NO COMP DESATION FOR PARTIAL DISABILITY FROM SILICOSIS. -- Componsation shall not be payable for partial disability due to silicosis.

Section 43-2119. COMPANSATION FOR TOTAL DISABILITY FROM UNCOM-LICATED SILICOSIS .-- In the event of total disability or death from uncomplicated silicosis, compensation shall be payable to applyers and their dependents as follows: If disablement occurs, or, in the case of no claim for prior disablement, if death occurs in the calendar month in which this chapter becomes effective, the total compensation and death benefits payable shall not exceed the sum of \$500.00. If disablement occurs, or, in the case of no claim for prior disablement, if death occurs during the next calendar menth the total compensation and death benefits parable shall not exceed \$50.00. Thereafter the total amount of compensation for death and benefits payable for total disability and death shall increase at the rate of .50.00 per month: the aggregate payable in each case to be limited according to the foregoing formula for the month in which total disability occurs, or, in case of no claim for prior disability, in which death occurs. Such progressive increase in the limits to the aggregate compensation and benefits for total disability and death shall continue until the limit of \$3,000.00 is reached, which limit shall continue until a transitory period of twelve years from the date when this chapter becomes effective shall have expired, and thereafter the total aggregate of such compensation and benefits shall be as provided in the workmen's compensation law; provided, bowever, that the compensation payable in any such case shall be limited to g period not to exceed the average life expectancy of a person of the age, and sex of the deceased.

Section 43-2120. COMPENSATION FOR TOTAL DISABILITY FROM COMPLICATED SILICOSIS. -- In case of disability or death from silicosis, complicated with tuberculosis of the lungs, compensation shall be psyable as for uncomplicated silicosis, previded, however, that the silicosis was an essential factor in causing such disability or death. In case of disability or death from silicosis complicated with any other disease, or from any other disease complicated with silicosis, the compensation shall be reduced as provided in Section 43-2108.

Section 2121. NON-DISABLISING SILICOSIS--WAIVER.--Where an employee, though not actually disabled, is found to be affected by silicosis; he may, subject to the approval of the board, be permitted to waive in writing full compensation for any agreevation of his condition that may

result from his continuing in his hazardous occupation. In the event of total disablement or death as a result of the disease with which the employee was so affected, after such a waiver, composation shall nevertheless be payable as herein also where provided, but in no case, which it for disability or death or both, to exceed 12,000.00 in the aggregate. A waiver so permitted shall remain effective, for the trade, occupation, process, or employment for which executed netwithstanding a change or changes of employer: Provided, that such waiver shall not inure to the benefit of any employer who fails to comply with the provisions of Section 43-2113. The industrial accident board shall make reasonable rules and regulations relative to the form, execution, filing, or registration, and public inspection of waivers or records thereof.

Section 43-2121a. A workman, seeking employment and having knowledge or being informed that he is affected with a non-disabling silicosis, who nevertheless voluntarily prefers to work in an occupation where his disease may become argravated, may, with the approval of the board, enter into a contract with his prospective employer, waiving compensation under Section 43-2122, upon the possible subsecuent termination of his employment from any of the causes set forth in Section 43-2122, or from any other causes.

Section 43-2121b. Before approving a waiver under Section 43-2121 or Section 43-2121a, the board shall be satisfied that the workman has voluntarily entered into said agreement to waive compensation: that it is of greater advantage to the workman and his dependents, if any, for him to work in an occupation where his disease may become aggravated than to seek other employment, and that the working conditions maintained by the employer are such as to minimize the hazards of silicosis.

Section 43-2122. NON-DISABLING SILICOSIS. -- Compensation upon severance from employment.

- (1) When an employee working subject to this chapter, who has not previously executed any of the waivers referred to in Sections 43-2121, 45-2121a, and 43-2121b, and who would be entitled to compensation under this law if disabled, is, because he has a non-disabling silicosis, discharged from employment in which is engaged, or when such an employee, after an examination \*\* \* as provided in subsection (2) and a finding by the medical panel that it is inadvisable for \* \* him to continue in his employment, \* \* terminates his employment \* \* the industrial accident board may allow such compensation on account \* of such discharge or termination of employment as it may deem just \* as support money pending his change of employment, payable as \* in this law elsewhere provided, but in no case to exceed \* \$750.00 \* \* \*. They shall be entitled to their reasonable and necessary traveline and other expenses incurred while actually engaged in the performance of their duties. In any case involving silicosis, the industrial accident board shall select three members of the silicosis panel to act as the medical panel in such case.

#### PRACTICE AND PROCEDURE

Section 43-2126. NOTICE OF CONTRACTION OF PISTASS AND CLAIM LOR COMPENSATION. -- Unless written notice of the manifestation of an occupational disease shall be given by the workman to the employer within sixty days after the first manifestation thereof, and except in the case of silicosis within five months after the employment has ceased in which it is claimed the disease was contracted, and, in case of death, unless written notice of such death shall be given within minety days after the occurrence, and, unless claim for disability, or death, shall be made within one year after the disablement, or death, respectively, all rights to compensation for disability, or death, from an occupational disease shall be for the barred.

Such notice and claim may be made by any person claiming to be entitled to compensation or by some one in his behalf.

Where componsation payments have been underend discontinued, and further compensation is claimed for such further compensation shall be made within one year after the last payment.

Section 43-2127. POST MORTAN EXAMINATIONS .-- Upon the filing of a claim for compensation for death from an occupational disease where an autopsy is necessary accurately and scientifically to escertain and determine the cause of death, such autopsy shall be ordered by the industrial accident board or the medical panel. The medical panel may designate a duly licensed physician, who is a specialist in such examinations, to perform or attend such autopsy, and to certify his findings thereon. Such findings shall be filed with the medical panel and shall be a public record. The industrial accident board also may exercise such authority on its own motion or on aplication made to it at any time by any part in interest, upon the presentation of facts showing that a controversy may exist in regard to the cause of death or the existence of any occupational disease. All proceedings for compensation shall be suspended upon refusal of a claimant or claimants to permit such autopsy when so ordered, and no compensation shall be payable during the continuance of such refusal.

Section 43-2128. NODIFICATION OF AWARD.—An award or denial of award of compensation for an occupational disease may be reviewed and compensation increased, reduced, or terminated where previously awarded, or awarded where previously denied, only upon proof of fraud or of change in conditions, and then only upon application by a party in interest made not later than one year after the denial of ward or, where compensation has been awarded, after the award of the date when the last payment was made under the award, except in case of silicosis where such time limit shall be two years.

Section 43-2129. ATPERINCE TO MEDICAL PAREL OF CONTROVERTED MEDICAL OUESTIONS. -- If on a claim for compensation for an occupational disease any medical question shall be in controversy, the industrial accident board shall refer the case to the medical panel for investigation and report. No award shall be made in any such case until the medical panel shall have duly investigated the case and made its report with respect to all medical questions at issue. The date of disablement, if in dispute, shall be deemed a medical question.

Section 43-2130. HEARING ON MEDICAL CURSCIONS -- FINDINGS. -- The medical panel, upon reference to it of a claim for occupational disease, shall notify the claimant or claimants and the employer to appear before it at a time and place stated in the actice, and shall examine the employee if living, and may exemine the body of the employee if deceased. If the employee be living, he shall appear before the medical panel at the time and place specified then or thereafter to submit to such examinations, including clinical and x-ray examinations as the medical panel may require. The claimant and the employer or his surety shall each be entitled, at his own expense, to have present at all examinations conducted by the medical panel, a physician admitted to practice medicine in the state who shall be given every reasonable facility for participating in every such examination. a physician admitted to practice redicine in the state shall certific that the employee is physically unable to appear at the time and place designated by the medical penel, such panel shall, on notice to the parties, change the place and time of examination to such other place and time as may reasonably facilitate the examination of the employee. Freeedings shall be suspended and no compensation shall be payable for any period during which the employed may refuse to submit to such examination.

Section 43-2131. REFORT OF MEDICAL PANEL. -- The medical panel shall, as soon as practicable after it has completed its consideration of the case, report in writing its findings and conclusions on every medical question in controversy. If the date of disablement is controverted and cannot be exactly fixed scientifically, the medical panel shall fix the most probable date, having regard to all the circumstances of the case. The medical panel shall also include in its report a statement indicating the physician or physicians, if any, who appeared before it, and what, if any, medical reports and x-rays were considered by it.

The medical panel shall file its findings and report with the industrial accident board, which shall send a certified copy thereof to the claimant or claimants and to the employer and his surety, if any.

Section 43-2132. AWARD--REVIEW OF MEDICAL FINDINGS.--The decision or award of the industrial accident board in the case shall conform to the findings and conclusions in such report insofer as restricted to medical questions: provided, however, that any such findings and conclusions may be set aside, reversed, or modified by the industrial accident board upon a review of the award or decision, in case such a review is had as provided in Section 43-1406 of the workmen's compensation act, subject, however, to the following special provisions:

# THARD RULES ALT RECULATIONS RELATING TO THE CONTROL OF SILICA DUST

## Application:

These rules shall apply to all operations within the State of Idaho at any point where injurious concentrations of silica dust are present.

#### Definitions:

"Silica-bearing rock" means any formation, natural or synthetic, containing as a component part free silica.

"Silica-bearing rock" shall be divided into two classes, as follows: Class I. Any rock formation, natural or synthetic, which has more than 10% by weight of free silica, and any other formation, natural or synthetic, having a variable and unpredictable content of free silica.

Class II. Any rock formation of substantially uniform, natural or synthetic character which has less than 10% by weight of free silica. No rock shall be considered as Class II until it has been demonstrated by the employer to the satisfaction of the Industrial Accident Board that it should be so classified.

"Injurious silica dust concentration" shall mean dust produced from any operation in excess of the following values as determined by an approved dust count method:

For Class I. Ten million (10,000,000) particles per cubic foot of air.

For Class II. Fifty million (50,000,000) perticles per cubic foot of air.

### Dust Control:

All operations in silica-bearing rock shall be executed so that there will be no dangerous exposure to injurious dust concentrations.

#### Dust Control Methods:

Dust control shall be by any one or more of the following methods:

- a. Suction or exhaust or other ventilation methods.
- b. Wet methods.
- c. When no other method or combination of methods can be used to prevent exposure to injurious silica dust concentrations, personal respiratory protection may be used subject to the approval of the Industrial Accident Board. In such cases, the employer shall provide each worker recuiring such personal respiratory protection with such equipment of approved design suitably identified to prevent exchange of such equipment and the employer shall further provide and employ approved facilities and methods for at least daily care of such equipment; or
- d. Other methods or combination of methods approved by the Industrial Accident Board.

"Approved" means approved by the Industrial Accident Board.
